

Guide to Postal Rates

Effective from 13th April 2017

Visit us at anpost.ie

Welcome to our Guide to Postal Rates

At An Post, our aim is to make posting your letters, large envelopes, packets and parcels as easy as possible for you. With this in mind, we offer you four distinct services: Standard Post, Express Post, Registered Post and International Courier Post, depending on your requirements.

Getting your mail from A to B is easy. You decide. We deliver.

Need to know more?

This is a Guide to Postal Rates only. For more details on any of our services call into your local Post Office, call Customer Services on 01 705 7600 or visit **anpost.ie**

Universal Services (USO)

Universal Services are specified in the Communications Regulation (Universal Postal Service) Regulations 2012, S.I.280 of 2012 and identified as 'USO' in this publication. See **anpost.ie** for the terms and conditions for these services.

Calculating Postage

Postal rates are calculated by reference to the weight, shape, size and destination of the item you are posting. Postal items are categorised into 4 distinct types: **Letter/Postcard, Large Envelope, Packet** and **Parcel**. The rates in this booklet reflect this. To calculate how much it will cost to post your item, refer to the guide on page 3 to determine its rate category and then consult the appropriate rates schedule.

The inclusion of both weight and shape in determining postal rates means that An Post rates reflect the costs involved in processing and delivering items of different sizes and shapes. If you have any questions about our rates or services, please pick up the relevant brochure at your local Post Office, visit **anpost.ie** or contact Customer Services on 01 705 7600.

Post Mail Sizes

Letter/Postcard

No larger than C5 (holds an A4 sheet of standard paper folded), weighing no more than 100g. Heavier or larger items may be classed as a large envelope, packet or parcel. The minimum sized envelope that can be used is 90mm x 140mm (W x L). Any item below this size needs to be inserted into an envelope of at least these dimensions to meet regulations. Failure to do so may result in the item being charged at a parcel rate.

**PostAim Mail: Maximum depth is 7mm*

Dimensions	
Minimum Size: Depth: 0.18mm  Length: 140mm	Maximum Size: Depth: 5mm*  Length: 235mm

Large Envelope

The Large Envelope rate of postage caters for flat items, such as an A4 sheet of standard paper, no larger than the maximum dimensions shown and weighing no more than 500g. Heavier or larger items may be classed as a packet or parcel.

Minimum Size: Depth: 0.18mm  Length: 140mm	Maximum Size: Depth: 25mm  Length: 400mm
---	--

Packet

Weighing no more than 2kg and within the dimensions shown. Heavier or larger items will be classed as a parcel.

Maximum Dimensions:

- Tube** – Length plus twice the diameter, no greater than 1,040mm – no one dimension exceeding 900mm.
- Other** – Length plus width plus depth, no more than 900mm with no dimension exceeding 600mm.

Minimum Size:

Parcel

Weighing no more than 20kg and within the dimensions shown. Large items with a light overall weight will be charged according to their dimensional weight due to the cost of transporting light but sizeable items. Calculate the dimensional weight and compare this to its physical weight. The greater weight of the two is used to work out the price.

Calculate the dimensional weight:

$$\frac{(L \times W \times D)}{6,000}$$

L = Length in centimetres
 W = Width in centimetres
 D = Depth in centimetres

Maximum dimensions:

- Length:** 1.5 metres
- Length + Girth:** 3 metres

To calculate Girth:
 2 x (Depth + Width)

How much will it cost?
